Only recharge twice per month

Whether indoors or out, at home or away, this "go anywhere" device with advanced GPS and Fall Detection can summon help to your location anywhere in the United States. This lightweight device activates two-way voice communication to our 24/7 monitoring center when a fall is detected or the button is pressed. **FULLY COVERED UNDER YOUR PROGRAM!**

- + Advanced GPS + Fall Detection PERS all in one device
- + Compact design weighing just over an ounce
- + Water resistant device for use in the shower
- + Lanyard and belt clip included with every device
- + Patented technology allows false alarm cancel
- + Visual and audible recharging reminders
- + Automatically tests battery and signal strength daily
- + 911 direct connect where cellular coverage is poor

*Landline or Cellular PERS*

# In the Home

PERS device options fully covered under your program that support your assessment skills and meet the needs of those you serve.

**Alert Button Options:**

**Pendant**

**Wristband**

**Fall Detection**

Individuals with a history of falls, fainting or seizures may benefit from this device.

This home-based device connects using a traditional landline phone jack OR through a cellular network. This service functions independently from any other telephone device. Activating the Pendant, Wristband or Fall Detection alert button initiates an emergency call to our 24/7 monitoring center. Trained response operators establish two-way voice communication, then assess the emergency and notify appropriate responders. **FULLY COVERED UNDER YOUR PROGRAM!**

- + Hands free, 2-way voice communication through the home-based unit
- + Your choice of Pendant, Wristband or Fall Detection style alert buttons
- + Alert buttons are waterproof and have a 5-10 year lifespan
- + Activation range of 600-800 feet through walls, doors and windows
- + 72-hour battery backup in case of power outage to the home-based unit
- + Home-based unit recharges itself when power is restored
- + Automatically performs a silent, self diagnostic test every month
